BENDERSVILLE STATION

Prices Effective for Delivery SPRING 1934

The Finest Fruit Trees Grown at Rock-Bottom Prices

NO AGENTS' COMMISSIONS

MY FRUIT trees are grown on strong fruit soil, in Pennsylvania's best fruit district—Adams County. I supervise the cutting of buds and the best of care is taken to have every variety true to name. My selling price is only a little above the actual cost of growing, giving the purchaser the benefit of lowest prices. My Nursery is inspected every year by State Nursery Inspectors, to see that all nursery stock is clean and healthy. A Certificate of Inspection accompanies all purchases.

This catalogue contains a list of the best fruits for this latitude, and their descriptions are not exaggerated or misleading.

Come to the Nursery, if you can do so, make your selection, and take them with you in your automobile or your truck. Otherwise, we will ship them to you by Express, Freight or Parcel Post, as you may wish. My Nursery is located one-half mile from Bendersville railroad station, 35 miles from Harrisburg, 10 miles from Gettysburg, on the Harrisburg-Gettysburg State Road via Carlisle, Route No. 34, hard road.

I have ideal shipping facilities—a large packing-house on a siding of the Reading Railroad. The trees are carefully packed and shipped and should reach the purchaser in the best of condition.

The greatest care is taken to have all trees etc., true to label. Any proving not so will be replaced or purchase price refunded, upon proper proof. In no case shall our maximum responsibility exceed the original amount paid.

A certificate of Nursery Inspection from the Department of Agriculture of Pennsylvania accompanies each shipment of nursery stock.

As to my reliability, I refer you to the Bendersville National Bank, Bendersville, Pa., or my many pleased customers.

TERMS. Cash with order, or satisfactory reference. A discount of 5 per cent allowed on all orders when cash accompanies the order.

PACKING OF NURSERY STOCK. All packing will be done in boxes or bales, thus protecting the roots and trees well in shipping. No charge is made for packing or delivering to railroad at Bendersville Station.

All orders are accepted upon condition that they shall be void should any injury befall the stock from hail, storm, or other causes beyond control.

SHIPPING. The fall shipment of nursery stock begins about November 15; the spring shipment about March 15 to April 1, depending on the season. Orders are now being booked.

Purchasers are requested to state whether they wish stock shipped by freight, express, or by the Delivery Prepaid List.

First class, 2 to 3 ft.30	2.50	16.00	150.00

Standard Varieties of Apples

These are a fine lot of Apple trees—nice, clean, thrifty, well grown. Budded on whole root seedlings. To those preferring 1 year trees, we invite you to compare ours with any grown. Varieties are here given and time of ripening.

Yellow Transparent. Earliest and best; white, tender, juicy, sprightly subacid; grows upright; bears when young, making good filler. July 1 to 15.

Early Harvest. Medium; pale yellow; tender, juicy. July 1 to 15.

Duchess of Oldenburg. Large; golden yellow, streaked red; subacid. Fine shipper and market Apple. Last of July.

Candy Apple. A variety found on one of the farms on the Adams County Nursery. It is of exceedingly fine flavor and is considered one of the very finest eating Apples in commerce. Not knowing its true name (if it has one), we call it the "Candy Apple." The fruit is yellow with red streaks, and it ripens August 1.

Wealthy. Medium size, round or pointed; almost solid red; flesh white, crisp, juicy; bears young. August 1 to 15.

Summer Rambo. Very large; greenish red, striped; tender, juicy; tree strong grower. August 15 to September 15.

Smokehouse. One of the good old kinds welcomed in every home. Ripens in September and can be kept in common storage late into the winter.

Stark. One of the late winter varieties of large size.

Grimes Golden. A good-sized yellow Apple of high quality. Ripens in September; can be kept late into the winter.

Jonathan. Very red Apple, smooth, of good size, and fine quality. Ripens in September; can be kept in common storage late in the winter.

McIntosh. Bright, deep red; fine quality. Ripens in September and keeps late into the winter in common storage.

Fallawater (sometimes called Pound Apple). Large, yellowish green fruits; productive. Ripens in September; keeps late into winter in common storage.

STANDARD VARIETIES OF APPLES, Continued

Stayman Winesap. Large; mostly covered with red; crisp and juicy. Tree a strong grower. Said to be one of the best Apples for orchard planting east of the Mississippi. Ripens in October and ready for use soon after picking; keeps late into spring.

Gallia Beauty. A solid red Rome Beauty sport. It is typical of Rome Beauty in every way except that the fruit averages smaller in size.

York Imperial. A medium to large winter Apple with yellow skin shaded red; firm, juicy, subacid. An excellent canning and shipping Apple and a good sort for export. October.

Baldwin. A fine winter Apple. Succeeds well in the Northeastern States.

Rome Beauty. Large, round, winter sort, mottled and striped in different shades of red; the flavor and quality are very fine. It is also a good late keeper.

Red Delicious (sometimes called Starks' Delicious). An excellent winter Apple. Brilliant dark red skin, shading to yellow at the blossom end, and growing somewhat in quince shape; very attractive.

Paradise Winter Sweet. Large; creamy white, rosy cheeked. One of the best sweet winter varieties.

Wagener. A winter variety that comes into bearing early; often used as fillers.

Northern Spy. Large red winter Apple; crisp and juicy. Does well in Northern States.

Winter Banana. Large; pale yellow, with a pink cheek; fine, mild, and aromatic flavor. October to April.

Winter Rambo. Pale green, striped red; tender and crisp. Fine winter Apple.

Cortland. Developed by the New York State Experiment Station as a cross between McIntosh and Ben Davis, inheriting the good qualities of both parents. In addition, its own individual quality has made it a strong competitor of McIntosh. It is a beautiful red, larger than McIntosh, and matures a month later; hangs well to the tree. It keeps late in winter and can be handled and shipped like the hardiest of market varieties. Has the caliber of a real leader.

Apple Barrels

Being located in the great fruit-growing belt of Adams County, we manufacture large quantities of Apple Barrels of good quality and can furnish them in carload lots or less at reasonable prices. Write for prices on Apple Barrels.

We suggest that you buy the trees you need as early as possible for there likely will be a large increase in prices for next Spring due to the fact that labor is going up and at a recent meeting of the Fruit Tree Growers of America it was found that there is a big shortage of both apple and peach trees.

We advise that you place your order now, at the present low prices.

FINE LEADING VARIETIES OF PEACHES

1-year-old, assorted kinds: 1 to 10 trees at the each rate; 10 to 50 trees at the 10 rate; 50 to 350 at the 100 rate; 350 to 1,000 or more at the 1,000 rate.

	Each	10	100	1,000
Extra select, 4 to 6 ft., 9/16 in. and up	\$0.35	\$3.00	\$18.00	\$150.00
First class, 3 to 4 ft., 7/16 to 9/16 in.30	2.75	14.00	125.00
First class, 2 to 3 ft., 5/16 to 7/16 in.25	2.00	11.00	90.00
First class, 1 1/2 to 2 ft.20	.85	7.00	50.00

The varieties are listed in the order in which they ripen in this section of southern Pennsylvania; early or late seasons may change the dates of ripening, but they will ordinarily follow each other in the order given.

Greensboro. An early, white-fleshed Peach that ranks high because of its showy fruit and its large, vigorous, healthy, early-bearing, and prolific trees. It is considered one of the best early freestone varieties as it ripens July 10 to 15. Fine market Peach.

Radiance. A seedling cross between Belle of Georgia and Greensboro. Large, white-fleshed, freestone Peach. July 15 to August 1.

Golden Jubilee. Developed and introduced by the New Jersey Experiment Station. A yellow, early freestone Peach, ripening about three weeks before Elberta, and of good quality. One of the best new varieties.

Hiley (Early Belle). An early commercial white freestone Peach.

Champion. A large, handsome, early variety. Creamy white with red cheek; sweet, rich and juicy; hardy and productive. August 1.

Belle of Georgia. Very large Peach with red cheek; flesh white and firm, of excellent flavor; fine shipper. August 1 to 15.

Rochester. One of the fine yellow Peaches. Ripens one to two weeks ahead of the Elberta. Fine market variety.

South Haven. A large yellow freestone, ripening about ten days before Elberta. A profitable commercial Peach, originating in Michigan.

J. H. Hale. Yellow; very large in size and globular in shape; skin thick, smooth, and without fuzz; flesh deep yellow, fine-grained, firm, of extra quality; good shipper. It ripens a little ahead of the Elberta, and brings highest prices.

Elberta. One of the greatest commercial yellow Peaches known. Good shipper. Tree hardy and good grower. August 20 to September 1.

Brackett. A fine yellow, freestone peach. Similar to Elberta, but of better flavor. A good commercial variety. A good shipper. Ripens about a week later than Elberta.

Crawford's Late. Large, yellow Peach, fine for canning and market. September 1 to 15.

Roberta. A new variety that is becoming popular. Very much resembles Elberta but season one week to ten days later.

Iron Mountain. A fine late white Peach, and an excellent market sort. Tree hardy; strong grower. September 20 to October 1.

Late Elberta (sometimes called the Rex). One of the best of the late varieties, ripening about three weeks after Elberta. It is of large size, with yellow flesh. Very desirable market Peach.

Salway. A late yellow variety. Latter part of September to October 15.

PEARS

	Each	10	100
Extra select, 1 and 2 years old, 5 to 6 ft.....	\$0.60	\$4.00	\$30.00

Bartlett. Large; buttery, juicy, high flavored; great bearer. This sort has long been considered one of the choicest canning varieties as well as a favorite for all other uses. August.

Clapp's Favorite. Very large; yellow and dull red skin, with russet specks; flesh melting, rich. August.

Seckel. Small; skin rich yellowish brown when fully ripe, with deep brownish red cheek; flesh very fine-grained, sweet, juicy, melting, buttery. One of the richest and highest flavored Pears. Equally popular for dessert and pickling. September.

Sheldon. A large, round, russet and red Pear of very fine quality; melting, rich, and delicious. Tree vigorous, erect, and handsome; bears well and should be more largely planted. October.

Kieffer. Large; handsome Pear with remarkable keeping qualities. Fine for making butter and canning.

Beurre d'Anjou. Large; buttery, melting, rich, vinous. The best late fall and early winter Pear. October to January.

CHERRIES

1 AND 2 YEAR TREES

	Each	10	100	1,000
Extra-select Sweet Cherry, 5 to 7 ft.	\$0.60	\$4.50	40.00	\$325.00
Extra-select Sour Cherry, 2-yr., 4 $\frac{1}{2}$ to 6 ft., 11/16 in. up40	3.00	18.00	150.00
First-class Sour Cherry, 2-yr. 4 to 5 ft., 9/16 to 11/1630	2.50	15.00	130.00

Bing. Sweet. This valuable new black Cherry succeeds everywhere. It is a very thrifty and upright grower, very hardy and productive. The flesh is very solid, with flavor of the highest quality. A fine shipper and market variety. It is one of the most delicious sweet Cherries. This valuable Cherry should be followed by Lambert, which is later in ripening. June.

Black Tartarian. Sweet. Very large, dark red Cherry, becoming black when over-ripe; juicy. June.

Governor Wood. Sweet. Large; light red; juicy, rich, delicious. Tree healthy and productive. June.

Lambert. Sweet. A fine variety, and one of the largest dark sweet Cherries. Flesh firm, rich, juicy. Tree a strong grower and enormous bearer. July.

Napoleon. Sweet. Large; pale yellow or red; firm, juicy, sweet and productive. July.

STANDARD VARIETIES OF CHERRIES, Continued

Schmidt's Bigarreau. Sweet. The fruit is very large, of deep mahogany color, and the dark flesh is tender, very juicy, with a fine, rich flavor. Fruit grows in clusters. An excellent shipper, larger than Black Tartarian, and brings good prices. Middle to last of June.

Windsor. Sweet. Large, liver-colored fruit with remarkably firm flesh of fine quality. Tree hardy and prolific. A valuable late variety. July.

Yellow Spanish. Sweet. Large; pale yellow, with red cheek; flesh firm, juicy, and excellent. One of the best light-colored Cherries. Vigorous and productive. Middle of June.

Large Montmorency. Sour. Large; red; productive. One of the best sour Cherries. July.

English Morello. Sour. Late; very hardy, and produces heavy crops of dark red fruit of good quality and rich acid flavor. Last of July.
